

Penny v 3.5

JOESOFTWARE NEWS– MAY 14, 2009

Joe is pleased to announce that the latest version of Penny is now available. In addition to a brand new look and feel, Penny 3.5 offers:

- Built-in integration to more third-party software, including WorkTech, WennSoft and Diamond REACH
- More out-of-the-box configuration options for timesheets, including negative time entry
- Improved delegation approval features
- Leave requests that flow through to time-sheets
- More standard reporting options

For more information or to book your upgrade, please contact Joe at info@joesoftware.com .
